*A Guide to Health Education in Ambulatory Care Settings*

1978 the contributing authors respected authorities on health care and social work describe the shift in hospital based health care to ambulatory care and the role of social work in this new environment social work in ambulatory care assists readers who need to develop plan and implement new social work roles for a changing health care system chapters focus on the implication of health care reform and provide specific examples of creative roles for social work

Pediatric Emergent/Urgent and Ambulatory Care 2016-01-20

the working group 5 of the international medical informatics association imia dedicates its work to information systems in primary and ambulatory care the first conference of this working group in hannover in 1980 produced a review of the state of the art of that time and gave perspectives for future development rienhoff o and abrams m e eds the computer in the doctor's office horth holland amsterdam 1980 in the meantime a rapid development has taken place therefore it

seemed appropriate to hold another working conference which was conducted in Munich December 2-6 1985 the goal of this working conference was to review the developments in this field and to critically evaluate the progress achieved so far the conference addressed general principles in system development and prerequisites for their successful introduction into routine use furthermore the topics of expert systems and new technologies were discussed in the context of their usefulness and usability in ambulatory care systems as before it became very clear that actual computer systems to support ambulatory and/or primary care have to meet the conditions of the health care delivery systems into which they are to be placed

**Innovations in Paediatric Ambulatory Care 1998-11-11**

outlining approaches for teaching residents and medical students in ambulatory care this book discusses essential teaching skills tells how to deal with difficult trainees and shows how to set up a private practice as a setting for teaching rubenstein is affiliated with the family medicine program royal college of general practitioners of Australia talbot teaches in the departments of family and community medicine and health administration at the university of Toronto annotation c 2003 book news inc portland or booknews.com
