Home Waters 2010-10-31 people who flyfish know that a favorite river bend a secluded spot in moving waters can feel like home a place you know intimately and intuitively in prose that reads like the flowing current of a river scholar and essayist george handley blends nature writing local history theology environmental history and personal memoir in his new book home waters a year of recompenses on the provo river handley s meditations on the local provo river watershed present the argument that a sense of place requires more than a strong sense of history and belonging it requires awareness and commitment handley traces a history of settlement along the provo that has profoundly transformed the landscape and yet neglected its native american and environmental legacies as a descendent of one of the first pioneers to irrigate the area and as a witness to the loss of orchards open space and an eroded environmental ethic handley weaves his own personal and family history into the landscape to argue for sustainable belonging in avoiding the exclusionist and environmentally harmful attitudes that come with the territorial claims to a homeland the flyfishing term home waters is offered as an alternative a kind of belonging that is informed by deference to others to the mysteries of deep time and to a fragile dependence on water while it has sometimes been mistakenly assumed that the mormon faith is inimical to good environmental stewardship handley explores the faith s openness to science its recognition of the holiness of the creation and its call for an ethical engagement with nature a metaphysical approach to the physical world is offered as an antidote to the suicidal impulses of modern society and our persistent ambivalence about the facts of our biology and earthly condition home waters contributes a perspective from within the mormon religious experience to the tradition of such western writers as wallace stegner terry tempest williams steven trimble and amy irvine winner of the mormon letters award for memoir

referring to the way in which we help wayfarers as if they were kin oikeion a word he takes from plato s discussion of love in many of these respects he probably influenced the stoic theory of justice as based on the natural kinship oikeiotes one feels initially for oneself at birth and eventually for lost wayfarers of the three commentaries translated here that by the second century ad aristotelian aspasius is the earliest extant commentary on aristotle the second is by michael of ephesus in the twelfth century the third is of unknown date and authorship aspasius worries whether there is only one kind of friendship with a single definition but he plumps for a verdict not given by aristotle that the primary kind of friendship serves as a focal point for defining the other two aspasius picks up connections with his stoic contemporaries michael cites christians and draws from neoplatonists the idea that there is a self aware part of the soul and that aristotle saw individuals as bundles of properties
